

## PRODUCT DESCRIPTION

- Easy LED service (assembly and disassembly OPK-4 extrusion „on click”)
- Line of light in the built-in lighting fixture without visible aluminum elements
- Can build fixtures going seamlessly from built-in to suspended ones
- OPK-4 extrusion can be bent
- Smoothly changing lighting height
- Fits in the thickness of a drywall board 0,47"/ 12 mm
- Lighting fixtures can be combined to form lighting strings (ZM connectors)
- The standard TPK-4 extrusion comes with a “foam technical cover” that facilitates “clean” mounting of the fixture in the drywall

### FINISH :

Silver anodized

## TECHNICAL SPECIFICATION

### Application

- for creating serviceable straight- and broken-line fixtures, built into drywall, flush with their surface, without visible aluminum flanges

### Assembly

- technical mounting track fixed with adhesive used for drywall. Snap-in light fixture with mounting brackets

### Additional information

- replaces TE-4 system

Turn off LED lights during peak day light hours in outdoor applications to avoid excessive heat buildup which will result in diminished LED life.

## AVAILABLE LENGTHS

Ref. nr.	surface finish	available lengths
C0370ANODA_1	Silver anodized	39.4"
C0370ANODA_2	Silver anodized	78.75"
